PROJECT GUIDE

NAME: Mr Pradeep Kanchan

ABSTRACT

E-Commerce, formerly referred to as Electronic Commerce, is the trading of several of goods & services over a wide area of electronic means; such as the Internet or any other Computer Networks. E-Commerce allows the exchange of data over electronic means in order to facilitate the financing & payment aspects of business transaction

OBJECTIVE

- Develop business relations.
- Marketplace exchange, buy/sell fulfilment, demand collection system, brokers, distributors, search agents and virtual marketplaces.
- Develop internal attributes that are helpful to the organization to achieving its objectives.
- Profit maximization and developing a unique customer experience.

END RESULT

E-commerce and online shopping in India are achieving remarkable and remarkable growth as more and more Internet facilities, high educational standards, lifestyle change, and the country's economic growth are being used more and more. Demand for electronic commerce techniques and tools.
